

A HOLDERNES COW

CATTLE PRINTS 1970

The antique Cattle Prints and Paintings listed in this brochure will be on Exhibition and for sale at the Perth Bull Sales in February, 1970. They will be on view in the offices of Macdonald, Fraser & Co., Limited who will be pleased to supply any further information.

The earliest prints of famous cattle were produced about 1790 and continued until about 1860 after which the fashion for having **famous** animals painted died out. Few prints have survived, consequently they have become very rare and continue to appreciate greatly in value, being much sought after by cattle breeders throughout the world to decorate their homes, offices and show barns.

This Exhibition provides cattle enthusiasts with a larger and more varied choice than can be found anywhere else. These prints and pictures are all genuine antiques and are in no case modern reproductions. They can be sent conveniently by air freight or shipped for which full arrangements can be made.
